**Subject:** RE: Reminder: PFAS Method Sub-Workgroup Call Today

As I recall I asked that it be added a long time ago (along with ADONA) but it did not make the cut to the final 24 analytes list.

I am away on a family vacation on the 12<sup>th</sup> of July but I would be glad to call in for an ORD voice with the best knowledge of GenX as we discovered it and now have 3 pubs on it.

I have been using my lab validated method with this compound for a couple of years.

Cindy,

I have a competing conference call with my NERL director about GenX in the Cape Fear river.
